

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls.

In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers.

This is very unfair!!
